EXHIBIT 2

Both George W. Clement and Faye S. Clement serve in management positions for Golden Corners Broadcasting, Inc., licensee of WCCP(AM), a day-timer in Clemson, South Carolina. They are therefore familiar with the local issues of public concern. They consider one of the primary problems of the area to be its lack of news service. The area is served by a bi-weekly newspaper and has no other local radio stations nor any local television stations. They believe it to be of prime importance to fill this void in local news and weather. Other matters of local concern involve environmental issues, as a nuclear power facility is located only ten miles away, agricultural, and educational issues.

They anticipate addressing these issues in the programming of the new FM facility, if the application of Golden Corners Broadcasting, Inc. is granted, as follows. They anticipate hourly newscasts focusing on local news and weather of ten minutes each. They will assist the local educational institutions via access to regular programming time, PSA's, and training interneers. They will address agricultural concerns with a weekly program in conjunction with the local horticultural college addressing the farm industry.
